COMPANY

Our company

Acb stands for Antwerp crafted busts. We are located in Antwerp, fashion capitol of Belgium. Every item of our collection is made in our factory in Belgium.

Quality

tradition & craftsmanship are our keywords. We like to work with natural materials: rich cotton and linen fabrics to finish the forms, natural oak and beechwood for the bases and accessories, exclusive bronze and other raw materials. An original Acb form receives a unique Acb quality label.

Innovation

we aim to develop display mannequins that are both classical and contemporary. Depending on your personal taste and the style of your store we will deliver the right item. We can give your shopwindow a sober and clean look as well as a warm classical feel.

Business Integrity

we do not use endangered or exotic wood but FSC labeled wood. We follow the highest european environmental regulations. Every item we manufacture and sell is made locally. Our suppliers are by preference local companies and without exception european. We are proud to guarantee a 100% european product.

Personal approach

as a relatively small business unit we handle all demands personally and immediately. Our commitment is there to meet your demands in any way possible : whether you ask for customized 'made-to-measure' items, development of exclusive tailor's dummies or a unique or original finish of the mannequins.

We believe

we can provide you with a perfectly designed quality form, made to make your store look better and to show your clothing in the best possible way. An Acb form will help you to increase sales. Because after all fashion is all about style.
